PROFILE

Empathic idealist backed by analytical thinking, helpful by nature I love creating processes and automation to simplify one's life. I'm a constant learner that can pivot quickly to the situation. I love working with great, genuine people and have developed strong communication skills and team management abilities.

WORK EXPERIENCE

Front - End Developer   **06/2021 – present**
Tapestry.ai, Melbourne, Australia

Tapestry.ai is a seed startup building back-office management system, aimed at independent retailers. Currently used in 27 supermarket, we are aiming at 250 shops by the end of the year.
Core technologies are React, Typescript, Redux, Jest, Cypress, GraphQL, Nx & Tailwind.

Key Achievements:
- Sped up new team member onboarding by writing a script to setup the project.
- Improved KPM by 80% by chunking our JS bundles smaller & implementing clever lazy loading
- Voted Best Documentation in the company
- Setup most of the front-end tooling and implemented a proper CI/CD pipeline

Front - End Developer 06/2020 – 06/2021
Smart.Studio, Melbourne, Australia

Consulting company leveraging ML to build web applications, I worked on 7 different projects during my time there. Core technologies I used were React, React Native, Javascript, Redux, Jest, Tailwind, PHP (Laravel).

Tour Manager & Sound Engineer 07/2013 – 03/2020

ACHIEVEMENTS

- Host of monthly Melbourne Ruby Meetup (30 - 50 persons)
- Mentored new students and alumni of General Assembly

Passionate   **Resourceful**   **Team Player**
